

Experiences of our trainees:

Catherine, Laura and Thibaut

Catherine (Belgium): My experience with this program is very good. I am very happy because I have learned something about Croatian history but also about history of Balkan countries. I spent a really nice three months, which were enabled by Eurodyssee program.

Laura (Spain): I took twice other internships so I already knew what this kind of experience can proffer me... Maybe that's the reason for what I decided to quit my job in Spain to go to Croatia. And what can I say now... just that it was so short, reality went over my expectations once again. And why Sisak? Well... great people, helpful citizens, really nice culture... you should discover it by your shelf.

Thibaut (France): Eurodyssee program provides an excellent opportunity for discovering new countries, new cultures. Three months that I spent in Croatia has enriched me on both levels – professional and personal. I experienced a very nice time in Sisak, bringing with me only good memories.
